

# Transforming CTE with Meteor Education

Where ProSocial Learning meets  
Career Readiness

Beyond designing learning spaces, Meteor Education transforms Career and Technical Education (CTE) experiences. Our ProSocial Learning Environments™ invigorate learning across various fields, ranging from hospitality to cybersecurity to healthcare. Let's create spaces where students don't just learn, they excel!

## Innovative Learning Spaces: Designing Future-Ready CTE Classrooms for Safety and Success

March 12<sup>th</sup> - 3:00pm CST

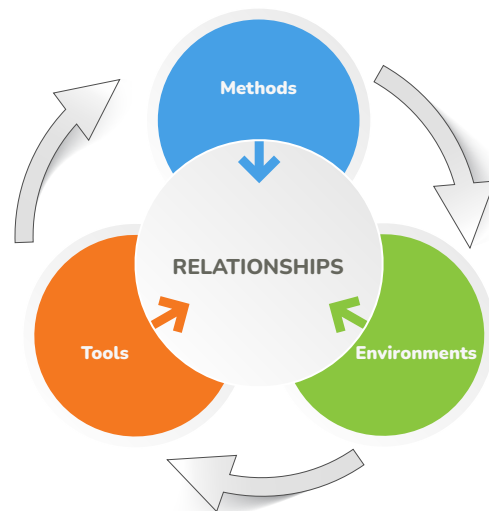

Elevate your design expertise!

Join our dynamic training to master the art of crafting cutting-edge CTE classrooms for Middle and High Schools. Unleash your creativity as we **delve into the specialized needs** of educational spaces, empowering you to craft immersive environments that ignite experiential learning and skill mastery.

Learning Hours: 1  
Provider: Meteor Education  
Credits: AIA LU/HSW

*Scan to Register for  
This Webinar!*

Powerful relationships between learners, teachers, and the content they explore together are facilitated by:

- The built **environment** where learning takes place.
- The **methods** of instruction applied.
- The **tools** used to catalyze and accelerate learning.

# Want to Build a ProSocial CTE Program?

*Let us help.*

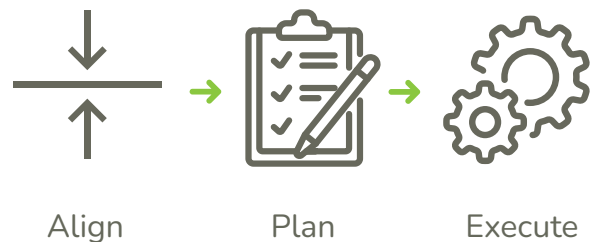

## Fundamentals for CTE Spaces

Every Meteor-designed CTE space integrates functionality with inspiration. Engaging and practical environments **prepare students for future careers** by nurturing skills in real-world settings.

## Long-Range CTE Planning

Our **Reimagine Program** helps shape your CTE vision into a sustainable, growth-focused reality. We build strategies based on current strengths, guiding your program toward long-term success.

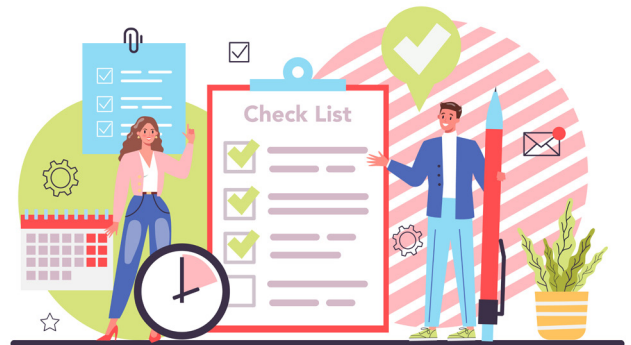

## CTE Readiness Assessment

Thinking about launching a CTE program?

*Not sure if you're ready?*

Meteor's instructional experts can **help assess your readiness level**, highlighting your strengths and areas for growth in order to fine-tune your path to excellence.
